

HEED / SPARE AIR - REFILLING DATASHEET

4 Easy Methods for Refilling

Refilling at a Local Dive Shop

Fill at any local SCUBA Diving Shops using the optional 920C Air Compressor Refill Adapter.

Refilling from SCUBA Tank

Fill using the 910C SCUBA Tank Refill Adapter attached to a fully pressurized 3000 psi SCUBA tank.

Refilling from a portable Breathing Air Compressor

Best for users with several units. Customized with filter and refill adapter

Hill EVO-310

LW 100 E1

Refilling from a Hand Pump

Using a customized hand pump, refill your unit to 3000 psi anywhere without the need for electrical power.
